Recording and Equipment

I typically jam on a Les Paul. I've recorded most of the downloads only songs using my home 8-track, then digitally mastering them using Garageband on my Mac. The discs were both cut at Modern Recording in Memphis, TN.

Pal, I really love the new album. I downloaded a couple tracks and they sound terrific! Great job. Let's hook up this weekend and have a drink.

BTW, I think we're on for playing at the Red Line Tap in Chicago. Some group called the Hen House Prowlers is playing there too. Apparently they're a pretty cool bunch of blue grass players.

The recording sounds pretty clean on "A Little Extra Sun." What equipment did you use? Please click on my profile and send me an email if you can find a free minute. Nice job overall! Two thumbs up.

Music Services Glossary

Jingles
Generally, these are melodies that are used for corporations to identify themselves in radio and television. They can vary between a few seconds and 15 to 30 seconds.

Sounds
Artists may generate interesting and useful sounds using instruments and sound equipment. These can be used in instrument demonstrations.

Recording Studios
Professionally set-up and run, these studios offer a place for artists to make a high-quality studio recording. Post-production assistance is also available.

Radio Commercials
Full creation of radio ads from writing to recording sound effects, music, and voice.

Composer/Arranger
Creation of a piece of music for commercial or artistic purposes. The music may then be performed and recorded.

Modern Recording

Located in Panama City, FL, We are a full service recording studio with all digital equipment.
